Comprehensive Digestive Care Portfolio

Dog & Cat

Dog

Dog & Cat

Dog & Cat

Indications

Acute Gastroenteritis

Pancreatitis
(Non-hyperlipidaemic)

GI Disease in
Puppies/Kittens

Megacolon
(Not responsive to fibre)

Post-Op Recovery

Pancreatitis

Hyperlipidaemia

PLE & EPI

Adverse Food Reactions

Inflammatory Bowel
Disease

Chronic GI Disease

Acute & Chronic
Fibre-responsive GI
Disorders

Low Colonic Motility,
Constipation, Megacolon
(fibre-responsive)

Antibiotic Responsive
Diarrhoea

**How it
Works**

Highly digestible
Energy dense
Electrolytes, B vits
Prebiotic fibre
Psyllium

Highly digestible
Low fat
Prebiotic fibre
Ginger
Omega-3 FA

Highly digestible
Hydrolysed or Novel
protein and carbohydrate

ActivBiome+
Prebiotic fibre
Psyllium
Optimal fibre mix
Pumpkin
Omega-3 FA
